

Bent Tube Grinding & Finishing

EVERGREEN BT-104

Automatic Feed

Bent Tube Finishing

The EVERGREEN BT-104 is a planetary abrasive belt tube grinding machine designed for grinding, cleaning, and polishing of round or elliptical straight and bent tubes and pipes. This machine will process tubes and pipes with a diameter up to 4 inches (10 - 104 mm). The BT-104 comes equipped with variable speed abrasive belts and foot pedal. The machine reduces the working time and effort required by the operator. It is composed of a cabinet stand suitable for housing belts and other accessories. The BT-104 is equipped with a connection for a self-filtering suction system for the collection of dust and can be equipped with an optional automatic feed for processing straight tubes.

Light-weight Aluminum Flywheel

Specifications

Grinding belt motor	2.2 kW
Planetary motor	1.5 kW
Working capacity	up to 4 in. (outside diameter)
Abrasive belts	37 in. x 2 in.
Variable belt speed	10 - 25 m/sec
Overall dimensions	48 in. (width) 26 in. (depth) 50 in. (height)
Weight	770 lbs
